ONLINE DESIGN CONSULTATION

## HOW TO SHARE YOUR DREAM CLOSET OR OFFICE IDEAS WITH YOUR DESIGNER

All of our closets, offices and other designs are as unique as the people that own them. It is best to have ideas of what you want your dream space to look like. Here are some things to think about before your online consultation.

### Organization

Your personal inventory will be the biggest factor in determining the best way to organize your dream closet, office or other space. You should have an idea of how you want your items to be organized. For example, in your closet do you like to fold your pants over a hanger, store them on a shelf or hang them by the cuff? Each one has different design elements. Think of those things that are most important to you; your designer will cover everything else during your appointment so you end up with the perfect design.

### How You Want It To Look

Our goal with the design of any space is to give you someplace you can call your personal oasis. That starts with making your design beautiful and just the way you want it. We have so many options to help you perfectly capture your style. From the color of the wood to the finish of the hardware, you personally choose every element.

### Budget

We are experts in designing for all price ranges. Let us know what you want, and we will take care of the rest. There are so many solutions and creative design ideas from simple to spectacular. You will be amazed how much we can do all in the price you want.
